### **Additional Information**

Starting in the summer of 2012, the Forest will conduct additional environmental analysis on specific roads to determine whether or not those roads should allow for both licensed and unlicensed OHV travel.

At the time of this printing, a decision has not been made on which routes to analyze further. When the decision is made on which routes will be further analyzed, it will be posted on the Forest's website under Travel Management Implementation page at:

<http://www.fs.usda.gov/main/whiteriver/home>

Any person wishing to be informed of the analysis, or wishing to comment on the analysis, may submit their name and physical mailing address to receive a hard copy notice to: Forest Supervisor/Travel Mgt. Contact List, White River National Forest, 900 Grand Avenue, Glenwood Springs, CO, 81601; or, submit a request to be notified electronically on the Forest's website listed above under the "Contact Us" icon on the home page.
